

Child and Family Services Update

February 3, 2003

Johnathan Jacob Corpuz

By Richard Anderson

You have seen a lot in the media regarding this brave little three-year-old boy. We have had attention from all over the nation by way of media coverage, calls and emails from all over wanting to adopt, and individuals and families wanting to bring gifts for him. Thanks to the good media coverage, we have quickly located family and obtained vital information about Johnathan Jacob. The caseworker (who wants to remain anonymous for now, the foster family) Carol Sisco, Duane Betournay, Intake, on-call, front desk receptionists, and all those who have been contacted, have sent the message that Utah Child Welfare is a great team in assisting abandoned children. My thanks to all of you who have assisted in helping out during this very high-profile matter.
